STORY

We are 47Billion  
a Product Engineering company

We're a team of experienced strategists, designers, and developers, working closely on all stages of your product journey – from conception to delivery.

We are problem solvers for the world. We make our customers understand the impact of future generation technologies and create a transformational impact on different development strategies.

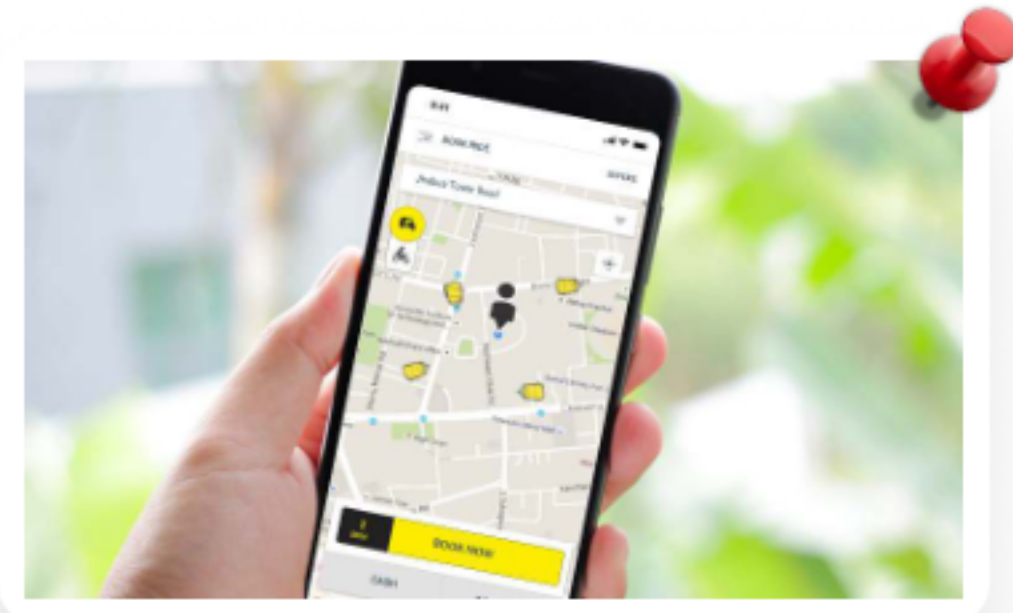

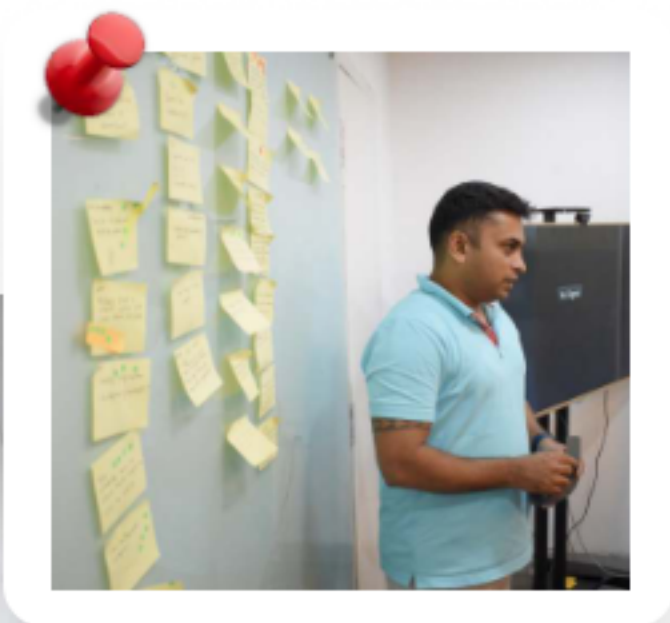

HELLO WORLD

## Our Process

47Billion follows industry-standard UX process. Each project is completed in three key phases:

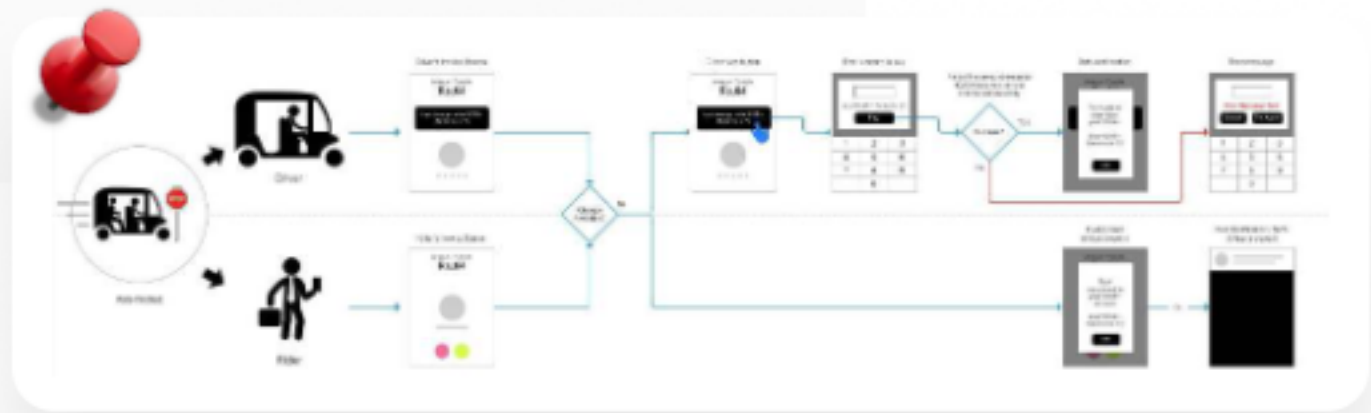

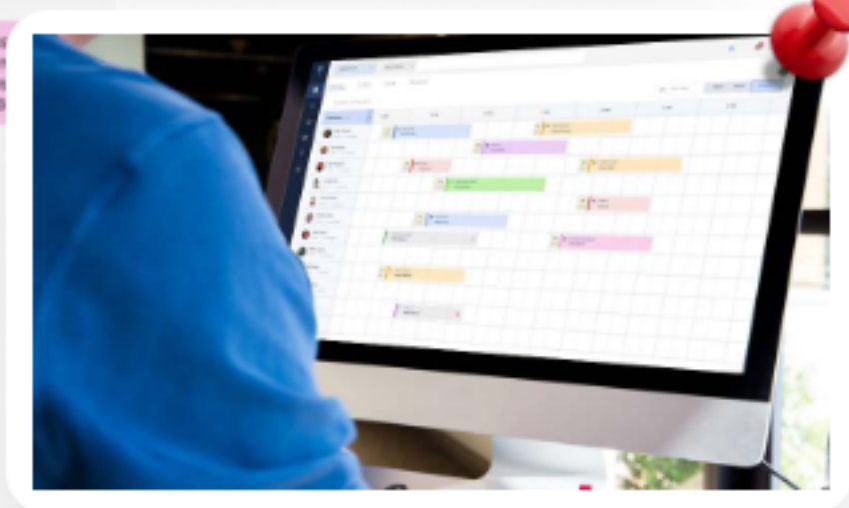

# In Action

## Primary Task Identification

- Team Lead**
- Business Admin (Paul G)**
- QC**
- QA**
- Manager (Brad)**
- Internal/External Customer**
- Quality Manager**

Classifying documents	Validation, correction				Performance data (Self and Team)	Common errors and training
